## We Appreciate Our Donors:

Who help us work on new historical research projects and maintain our collection to share Westbrook's history and discoveries through programs and publications. Some examples of projects that we have commissioned are the restoration of the old gravestones in all of the cemeteries and grave sites, numerous walking tours of significant historical value and title research for historical plaque projects.

We also try hard to fundraise for our society by coordinating various events and programs to help educate our residents such as the old fashioned Tea Party and our annual Day on the Green Arts and Crafts Fair. This fair is now in its 40th year!
