

A World Built for Students. So They Can Take on the World.

Nestled on a 23-acre campus in Madison, our PreSchool-8th Grade day school is home to over 200 students from more than 20 towns.

A private school with a public purpose, Country School continues to fulfill this almost 70-year commitment, in part, by offering financial aid to one out of every four families and partnering with the community and local businesses for enrichment and educational opportunities.
