

EXPLORE

WELL-BEING IN MORE WAYS THAN ONE.

Every year, we provide approximately 2,000 pounds of fresh produce to the Shoreline Soup Kitchens and Pantries location in Westbrook to ensure those most in need in our community have access to healthy food.

This year in addition to supporting our before and after care programs at local schools, we are also hosting a Hybrid Learning Camp, designed to allow parents to return to work and for their children to learn virtually in a safe and enriching environment.

As part of our commitment to reducing drowning and water related accidents in children, we offer 200 free swim lessons during the winter school break to ensure all children have the basic skills needed to be safe around water.
